

# Flores

Bartoli Design

Benches in various sizes and shapes, Flores is perfect for waiting areas. This design allows one to sit on any side and to arrange the backrests comfortably. Backrest cushions, with internal dead weight, are not attached to the frame but free to be positioned as desired.

Tubular steel legs in chrome or powder coat finishes. Underside of seat is black moulded ABS thermoplastic which, if desired, may be upholstered to match seat top surface.

Internal frame of metal combined with multi-ply plywood; seat and shaped cushions of non-deformable polyurethane foam covered with polyester padding. Fire retardant foam and padding meet Italian Class 1 IM and California Bulletin 117A. Covers available in fabric or faux leather.
